

doingbusinessin[®]

NIGER
édition 2020

The aim of doingbusinessin® Niger is to promote a dynamic, modern, competitive country

The Haut Conseil pour l'Investissement au Niger (HCIN), an organization that is well aware of the importance of foreign investment in Niger, is supporting and promoting investment in the country.

HCIN is directly accountable to H.E. the President of the Republic thereby ensuring its strong institutional roots.

The purpose of doingbusinessin® Niger is to make foreign business companies and investors understand the importance of Niger as a leading destination of the future.

On the international scene, marked by serious competition, international players and experts are showing increasing interest in the potential of Niger.

The reforms currently underway, and the visible effects of the 2017-2021 Economic and Social Development Plan (Plan de Développement Economique et Social) - PDES, a practical tool for the country's new growth strategy, will help investors identify sectors with long-term promise and new opportunities.
